- b) For the policy year for which the full years' premiums have not been paid (the year in which the policy becomes paid-up) and for subsequent policy years: The Guaranteed Additions shall be as under:
 - (i) For the policy year for which the full years' premiums have not been paid, Guaranteed Additions shall accrue at the end of that policy year and shall be sum of proportionate Guaranteed Additions for in-force period, with the rate as applicable for an in-force policy and proportionate Guaranteed Additions for the period policy is paid-up, with the Rate of Guaranteed Additions applicable for paid-up policy (as mentioned below).

- (ii) For subsequent policy years during the policy term, the Guaranteed Additions shall accrue at the end of each completed policy year with the Rate of Guaranteed Additions applicable for paid-up policy (as mentioned below).

The Rate of Guaranteed Additions applicable for paid-up policy shall be equal to applicable Rate of Guaranteed Additions for an in-force policy (as specified in Para 3.C) *multiplied by ratio* of total period for which premiums have already been paid to the maximum period for which premiums were originally payable.

This rate of Guaranteed Additions applicable for paid-up policy shall remain same under a paid-up policy.

The Guaranteed Additions applicable for a paid-up policy that shall accrue at the end of each policy year shall be equal to Rate of Guaranteed Additions applicable for a paid-up policy (as specified above) *multiplied by* Total Tabular Annual Premium in respect of Premiums Paid. This Guaranteed Additions shall remain same during the period the policy continues as a paid-up policy.

In case of Death under a paid-up policy, the applicable Guaranteed Additions for the policy year in which the policy resulted in Death claim will be added on proportionate basis in proportion to the completed months for the policy year in which policy resulted in death claim (i.e. the period upto the date of death). For example, if a paid-up resulted in death claim after five months and 17 days in a particular policy year, then applicable Guaranteed Additions on proportionate basis for five months i.e. $5/12^{\text{th}}$ of applicable Guaranteed Additions for that policy year shall be added.

Notwithstanding what is stated above, if at least three full years' premiums have been paid in respect of the policy, and any subsequent premium be not duly paid, in the event of the death of the Life Assured within six months from the due date of First Unpaid Premium, "Sum Assured on Death" along with accrued Guaranteed Additions for in-force policy shall be paid after deduction of (a) the unpaid premium(s) for the base policy with interest thereon up to the date of death on the same terms as for revival of the Policy during such period, and (b) the balance premium(s) for the base policy falling due from the date of death and before the next Policy anniversary. This provision shall not apply in case of death due to suicide.

Notwithstanding what is stated above, if at least five full years' premiums have been paid in respect of the policy, and any subsequent premium be not duly paid, in the event of death of the Life Assured within 12 months from the due date of First Unpaid Premium, "Sum Assured on Death" along with accrued Guaranteed Additions for in-force policy shall be paid after deduction of (a) unpaid premium(s) for the base policy with interest thereon up to the date of death on the same terms as for revival of the Policy during such period, and (b) the balance premium(s) for the base policy falling due from the date of death and before the next Policy anniversary. This provision shall not apply in case of death due to suicide.

All of the above mentioned Paid-up Value Provisions do not apply to Riders as the riders do not acquire any paid-up value. The riders benefit ceases to apply, if policy is in lapsed condition.

13. SURRENDER VALUE:

The policy can be surrendered by the policyholder after completion of first policy year provided one full year's premium(s) has been paid. However, the policy shall acquire Guaranteed Surrender Value on payment of atleast two full years' premiums and Special Surrender Value after completion of first policy year provided one full year's premium(s) has been paid.

On surrender of an in-force or paid-up policy, the Corporation shall pay the Surrender Value higher of

- a) Guaranteed Surrender value (GSV) and surrender value of any accrued Guaranteed Additions; or
- b) Special Surrender Value (SSV).

The Guaranteed Surrender Value, surrender value of any accrued Guaranteed Additions and Special Surrender Value shall be as under:

a) Guaranteed Surrender value (GSV) and surrender value of any accrued Guaranteed Additions:

The Guaranteed Surrender Value shall be the total premiums paid *multiplied* by the GSV factor applicable to total premiums paid.

i.e. $GSV = (GSV \text{ factor applicable to total premiums paid} * \text{total premiums paid.})$.

Premiums referred above shall not include any extra premium, any premium for rider(s), if opted for & taxes.

The GSV factors applicable to total premiums paid are expressed as percentages and depend on the policy term and policy year in which the policy will be surrendered and are enclosed as **Annexure - 7**.

For the calculation of GSV, the accrued Guaranteed Additions shall include the Guaranteed Additions for each of the completed policy year and the Guaranteed Additions on proportionate basis in proportion to the completed months for the Policy Year in which policy is surrendered. For example, if a policy is surrendered after five months and 17 days in a particular policy year, then Guaranteed Additions on proportionate basis for five months i.e. 5/12th of Guaranteed Additions for that policy year shall be considered for accrued Guaranteed Additions. The applicable Guaranteed Additions shall be as specified in Para 3.C and Para 12.

The surrender value of any accrued Guaranteed Additions shall be the accrued Guaranteed Additions *multiplied* by GSV factor applicable to accrued Guaranteed Additions.

i.e. $\text{Surrender value of any accrued Guaranteed Additions} = (GSV \text{ factor applicable to accrued Guaranteed Additions} * \text{accrued Guaranteed Additions})$.

The Guaranteed Surrender Value factors applicable to accrued Guaranteed Additions are expressed as percentages and shall depend on the policy term and policy year in which the policy will be surrendered and are enclosed as **Annexure - 8**.

b) Special Surrender Value (SSV):

Special Surrender Value will be payable, if it is more favourable to the Policyholder.

The Special Surrender Value payable shall be as under.

The Special Surrender Value will be the *sum* of [(Death Paid-Up Sum Assured plus accrued Guaranteed additions) *multiplied* by Factor 1] and (Future Annual applicable Guaranteed Additions *multiplied* by Factor 3) and [(Maturity Paid-Up Sum Assured plus accrued Guaranteed Additions plus sum of Guaranteed Additions for future period) *multiplied* by Factor 2].

i.e. Special Surrender Value = [(Death Paid-Up Sum Assured + accrued Guaranteed Additions) * Factor 1] + (Future Annual applicable Guaranteed Additions * Factor 3) + [(Maturity Paid-Up Sum Assured + accrued Guaranteed Additions + sum of Guaranteed Additions for future period) * Factor 2]

However, in case of minor life wherein the policy becomes Paid-up before the date of commencement of risk, the Special Surrender value shall be sum of (Total Premiums paid (excluding taxes, any extra amount chargeable under the policy due to underwriting decision and rider premium(s), if any) *multiplied by* Factor 1) and [(Maturity Paid-Up Sum Assured plus accrued Guaranteed Additions plus sum of Guaranteed Additions for future period) *multiplied by* Factor 2].

For the calculation of SSV, the accrued Guaranteed Additions shall include the Guaranteed Additions for each of the completed policy year prior to the surrender and the Guaranteed Additions on proportionate basis in proportion to the duration elapsed during the policy year in which policy is surrendered. The applicable Guaranteed Additions shall be at the Guaranteed Additions rate as specified in Para 3.C and Para 12.

Future Annual applicable Guaranteed Additions shall be the Guaranteed Additions for a policy year and shall be determined considering the policy is paid-up (irrespective of the status whether the policy is in-force or paid-up) and shall be equal to Rate of Guaranteed Additions applicable for a paid-up policy (as specified in Para 12 and is as mentioned below) *multiplied by* Total Tabular Annual Premium in respect of Premiums Paid.

Where,

The Rate of Guaranteed Additions applicable for paid-up policy shall be equal to applicable Rate of Guaranteed Additions for an in-force policy (as specified in Para 3.C) *multiplied by ratio* of total period for which premiums have already been paid to the maximum period for which premiums were originally payable.

The sum of Guaranteed Additions for future period shall include all the future Guaranteed Additions (from surrender) which would have been applicable had the policy continued till maturity, considering the policy continued as a paid-up policy (irrespective of the status whether the policy is in-force or paid-up). The Guaranteed Additions for each of future policy year shall be equal to Rate of Guaranteed Additions applicable for a paid-up policy (as specified in Para 12) *multiplied by* Total Tabular Annual Premium in respect of Premiums Paid.

The Death Paid-Up Sum Assured and Maturity Paid-Up Sum Assured shall be as specified in Para 12.

In case of fully paid-up policies, in determination of SSV as mentioned above:

- Death Paid-Up Sum Assured and Maturity Paid-Up Sum Assured shall be equal to Sum Assured on Death and Sum Assured on Maturity respectively.
- Future Annual applicable Guaranteed Additions shall be the Guaranteed Additions as applicable for in-force policy as specified in Para 3.C. Accordingly, the sum of Guaranteed Additions for each of future policy years shall be taken.

The Factor 1, Factor 2 and Factor 3 shall depend on the policy term and the duration elapsed since commencement of the policy and are enclosed as **Annexure - 9, Annexure - 10 and Annexure - 11** respectively. These factors have been provided for half-year duration and the duration elapsed shall be taken to the nearest half-year. These factors shall be reviewed annually and instructions in this regard shall be issued by Actuarial Department, Central Office.

Further, if the policy is surrendered during the last policy year before date of maturity, the surrender value payable shall be the discounted value of maturity claim; where, in case of in-force policy, the maturity claim is **Sum Assured on Maturity** along with accrued Guaranteed Additions (as specified in Para 3.C), corresponding to the full term of the policy. In case of paid-up policy, the maturity claim is **Maturity Paid-up Sum Assured** along with accrued Guaranteed Additions (as specified in Para 12), corresponding to the full term of the policy.

Upon payment of Surrender value during the Policy Term, the Policy terminates and no further benefits shall be payable.

Instructions regarding discounting of maturity claim along with applicable interest rate shall be issued by Actuarial Department, Central Office.

LIC's Accidental Death and Disability Benefit Rider and LIC's New Term Assurance Rider will not acquire any surrender value. However, refund of additional Rider premiums charged in respect of cover after Premium Payment Term shall be refunded in respect of these riders and shall be as prescribed in the introductory circular of the rider.
